

ADRIATIC+ PROJECT

Sharing Marine and Coastal cross management experiences in the Adriatic basin

MARITIME SPATIAL PLANNING FOR REAL – What difference does it make?

Slavko Mezek, RRC Koper

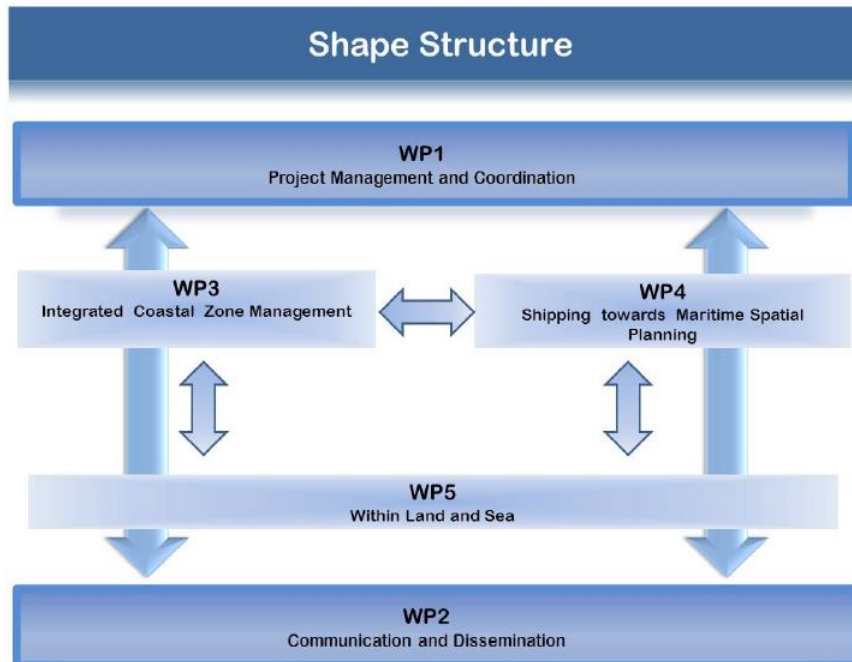

2nd Project Meeting
15th and 16th July 2016 Pescara (IT)

Shape project - Background

- Adriatic/Mediterranean: one of the most vulnerable world seas,
- Subject of growing pressures,
- Growing attention to development/ environmental issues,
- New tools available: MSP, ICZM
- **SHAPE: Shaping a holistic approach to protect the Adriatic environment: between coast and sea**
- development, testing, pilot application, promotion of tools among Adriatic partners

Shape project – WP4

Act. 4.1 – Holistic management of the Adriatic Sea. Bridging the gap between EU Policy tools (WFD, ICZM, Natura 2000, Marine Strategy, MSP, IMP) and legal framework;

Act. 4.2 – Define the ecosystem as the basis of MSP;

Act. 4.3 – MSP in the Adriatic: problem analysis and thematic mapping;

Act. 4.4 – Pilot project on MSP; integrating MSP and ICZM

Act. 4.5 – Common methodology for MSP at local scale in the Adriatic.

Opportunities and Challenges

Policy and legal context:

EUSAIR – EU strategy for the Adriatic and Ionian Region

Inspiration by Adriatic and other CBC MSP initiatives BaltSeaPlan, Plan Bothnia..

Adrion, other funding schemes, pre-accession assistance

MSP and ICZM integration

Directive establishing a framework for MSP and ICZM

Protocol on ICZM (Barcelona convention)

CBC and stakeholder involvement

Ongoing CBC initiatives

SHAPE partnership

ADRIPLAN partnership

Long term and clear commitment of all A-1 countries
Availability of financial and technical resources

Promote specific actions and projects on ICM/MSP within the EUSAIR Action Plan, within different funding schemes (ADRIPLAN, Campostrini)

Integration of terrestrial and maritime planning: skills and competence, ver-hor coordination, joint effort coa-mar stakeholders

Promote a cross-border / pan-basin approach, not limited to jurisdictional waters, national / regional
Increased stakeholder involvement, transparent process, participation

Opportunities and Challenges

Shape – ADRIPLAN Data portal

*Use and development of the
SHAPE - ADRIPLAN portal, for creating a
EUSAIR permanent ICM-MSP oriented
Spatial Data Infrastructure, based on Open
Data policies and enhanced co-operation at
sea basin level (ADRIPLAN, Campostrini)*
